

Seamlessly print, e-mail, fax, bar-code, archive & more.

Now you can easily automate form management and distribution with Reform Enterprise by FabSoft.™ Fully compatible with Sharp's Digital MFPs and Color IMAGER™ products, this powerful software solution will streamline your workflow with quick and efficient, point-and-click document distribution. Users can automatically route documents to a fax or e-mail address, MFP, printer, or FTP site—reducing the paper trail and saving valuable time. Sophisticated tools enable you to customize forms, invoices, and other transactional documents, enabling you to automate processing while maintaining a professional image. What's more, Reform is fully compatible with most operating systems and protocols, and offers seamless expansion to the enterprise.

Complement your Sharp Digital IMAGER and Digital Color IMAGER products with Reform Enterprise.

key features

- **Generate customized forms, invoices, and more** on-demand—and eliminate costly outsourcing of pre-printed forms
- **Works fluently** with all accounting, financial and form generation applications
- **Easily share and distribute electronic documents** across most applications or platforms
- **Eliminate manual entry** of destination information in fax and e-mail transmissions
- **Send a fax or e-mail transmittal directly** from an application
- **Minimize manual filing errors** with automated archiving
- **Easily retrieve documents** with detailed indexing and search capabilities

Streamline document management and distribution with Reform's easy-to-use features.

Efficiently manage documents right from your desktop

Reform's innovative print driver speeds up document processing and works seamlessly with any Sharp IMAGER™ or Color IMAGER products. Manage printer functions including collating, duplexing, sorting and PIN printing directly from your desktop—and save valuable time.

Fax and e-mail documents with point-and-click simplicity

Now your entire workgroup can benefit from automated e-mail and faxing. With the ability to fax and e-mail documents directly from your application, Reform generates a cover page, locates the destination, then automatically sends the document to the recipient. Reform's e-mail capabilities support a variety of file formats including JPEG, BMP, PCX, TIFF and PDF, and are fully compatible with most popular faxing and e-mail systems.

Retrieve or reprint documents on-demand

Because Reform automatically saves the content of a document each time it is processed, users can easily retrieve or reprint them at a moment's notice. Reform also provides seamless integration with 3rd party archiving systems, providing a comprehensive solution for all your data storage needs.

Add efficiency with customized, automated forms

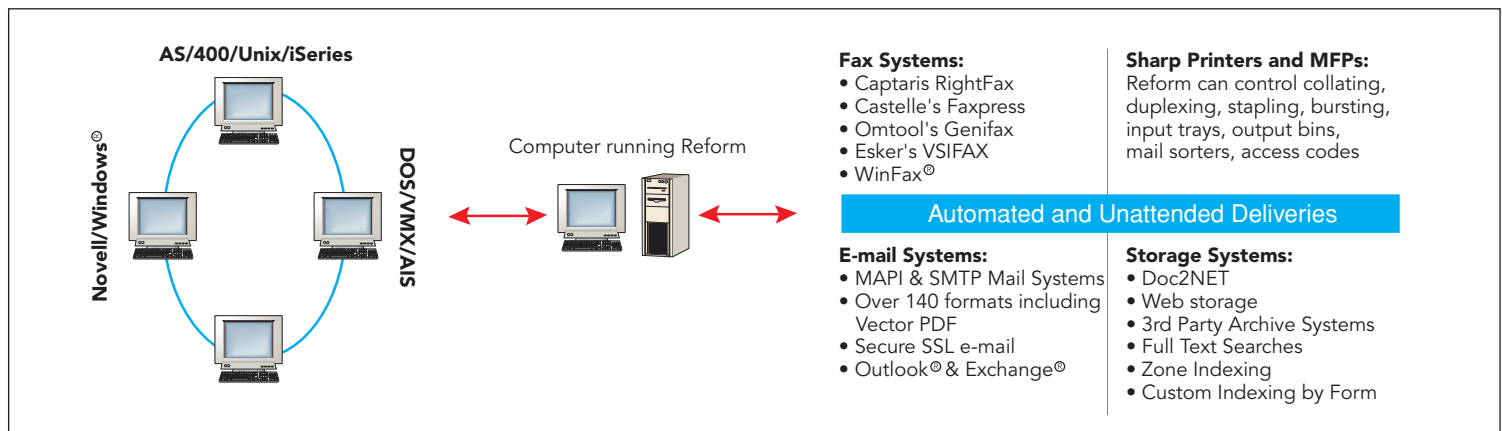

Reform makes it easy to customize almost any type of form including invoices, statements, checks, purchase orders, labels and more. Fully compatible with most forms and accounting systems, Reform provides unparalleled flexibility and efficient access and distribution for any busy workgroup. User-friendly drag and drop functionality makes it easy to add images, logos, and signatures to documents—for complete automated processing.
