

Transform paper documents into information that is easily integrated with all of your business applications.

Coupled with Sharp Digital IMAGER™ Systems, eCopy products transform paper documents into information that easily integrates with your business applications. Complementing Sharp's award winning ImageSEND technology, eCopy ShareScan OP v3.0 offers a dynamic touch screen user interface with document preview, address integration, and other workflow enhancing features including Scan and Mail, Scan and Fax, and Scan to Desktop. With eCopy's Quick Connect feature you can create custom "scan to" buttons, automating the workflow process for scanned documents. In addition, eCopy's add-on Connectors offer native integration with a wide variety of enterprise software applications to help you maximize the return on your IT investment.

An eCopy-enabled Sharp Digital IMAGER dramatically increases the efficiency of enterprise workflows while decreasing operating costs.

BENEFITS

eCopy's ShareScan OP v3.0 and Sharp's Digital IMAGER help improve overall business operations as well as streamline IT administration.

Business Operations Benefits:

- Integrate paper documents with existing enterprise applications
- Send paper documents electronically with security
- Dynamic user interface displays unique user permission and preferences at the Sharp Digital IMAGER
- Integrated freestanding touch screen and tilt swivel keyboard with support

IT Administration Benefits:

- Configure multiple devices from one central location
- Configure Sharp Digital IMAGERs with unique department requirements
- Microsoft Centric Admin Model via MMC
- Lower total cost of ownership

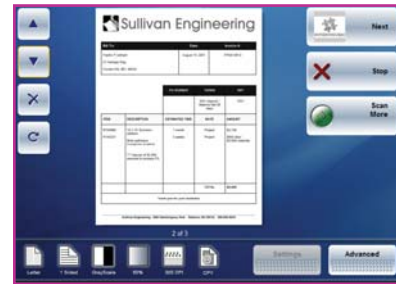

Increase operating efficiency by integrating paper documents into your electronic workflow with Sharp Digital IMAGERs and eCopy ShareScan OP v3.0.

The eCopy ShareScan OP v3.0 is comprised of:

eCopy ScanStation OP

- Comprised of an integrated, free standing touch screen, keyboard, and PC that connects easily to a Digital IMAGER
- Supports both color and black and white Sharp Digital IMAGERs
- Destination options are shown as easy to read icons on the eCopy ScanStation OP touch screen and may include: Scan and Mail, Scan and Fax, Scan to Desktop, Scan to Printer, and Scan to Document Management System

Preview scanned documents before sending

eCopy ShareScan OP

- eCopy ShareScan OP is the software that drives the eCopy ScanStation OP
- eCopy ShareScan OP consists of three components: the eCopy ShareScan OP Client, eCopy ShareScan OP Admin Console, and eCopy ShareScan OP Services Manager
- Administrators can manage connector profiles for multiple eCopy ScanStation OPs from an administrative workstation anywhere on the network
- Color documents are scanned with eCopy Xpert Compression Technology which reduces file size by more than 99% of the original size

eCopy Desktop

eCopy Desktop provides a powerful set of document workflow tools that enable individual users to treat scans of paper documents just like electronic files right from their desktop workstations. eCopy Desktop works with most network fax, e-mail, and ODMA-compliant document management applications. (10 licenses ship with the standard product)

eCopy Viewer

The eCopy Viewer is a small-footprint (1MB) viewing application that enables any user to view and print an eCopy, right from their desktop.

Connectors

An eCopy-enabled Digital IMAGER provides direct integration to a multitude of back-end applications via eCopy Connectors. A "Connector" is a link between an eCopy-enabled Sharp Digital IMAGER and a networked software application or service. Examples include e-mail, bates stamping, document management systems, fax servers, enterprise software applications, etc.

Core Connectors

- Integrates paper with customers': e-mail application; fax service or server; desktop; printers
- Directly integrates with e-mail and fax applications bringing the familiar software interface to their MFP
- Bundled with the base product:
 - E-mail Connectors - Lotus Notes and Microsoft Exchange/Outlook
 - Fax Server Connectivity - Captaris Right Fax

Quick Connect

- Custom "Scan to" buttons can also be created using the Quick Connect feature
- Bundled feature in standard offering

Add-On Connectors

- Native integration with today's most popular business applications

Available through Sharp

- Add-On Services - Bates Numbering, Cost Recovery
- Document Management - EMC Documentum Content Server, Hummingbird Enterprise™ DM, Interwoven WorkSite, Open Text's Livelink

Available through Third Party Vendors
